

CS315 LAB INFORMATION

Come to CL135 for labs or lab help.

If you need CS315 lab help outside your scheduled lab time:

- see Alex Clarke or Nova Scheidt during office hours in CL119 or Sciencelab 006 (schedules and Zoom link in URCourses) or
- email your lab instructor via UR Courses email - **no direct messages!**

LAB RELATED INFORMATION:

1. Lab is complementary to the classroom teaching. Lab emphasizes on practical hands-on experience.
2. Lab material is online: [CS315 Lab Material](#). Archival videos from the pandemic (Winter 2021) are also available. Please be familiar with the corresponding lab material before coming to the lab.
3. Lab work is due in UR Courses and at your lab workstation before the beginning of your next lab seminar.
4. We will be present in the lab during your regular lab time every week to answer assignment related questions.
5. If your assignment is missing at marking time, we will grade it again upon request at a 50% penalty.
6. If you cannot turn in lab work or attend section due to illness, interviews, funerals, etc. let your lab instructor know prior to (or the day of) the lab. Arrangements can be made.
7. Marking scheme for lab activities in the semester:

In-Lab Completion Check	Minimum one rubric item
Work submitted to URCourses	Remaining rubric items

Some labs have optional bonuses worth 1/10th of a lab each.

We encourage group interactions, but expect that your work will be your own. Success in the lab will help you meet Dr. Hepting's programming requirements.
