LAB RELATED INFORMATION

- Please read the lab material before coming to the lab.

- Please come to CL115 five minutes early; we will be taking attendance at the start of the lab. If you are not punctual, you will not receive your attendance mark.

- Lab work is to be submitted to the **CS330 LAB: Intro to Operating Systems** UR Courses module.

- Labs are due two hours before your next week's lab section (see URCourses for specific sections and deadlines).

- Your work should be a unique submission. Duplication of your own work submitted from a previous semester or duplication of another person's work would result in a zero for that exercise for all parties involved regardless of if you did the work yourself. If you share your work with others, then you are just as guilty as the one who received your work. These cases will be reported to the Associate Dean Academic and may result in stiffer penalties.

- Late submissions, without valid reason, will be marked at a penalty of 50%.

- One low lab mark will not be counted. Of the 11 labs, only 10 lab marks will be used; your lowest mark will be dropped.

- The lab is 10% of your final CS330 grade. The breakdown is as follows:

  o 5% is for submissions in URCourses
  o 3% is for punctual attendance
  o 2% is for engagement/sincerity/professionalism, which includes but is not limited to asking questions in the lab and being involved with learning the lab content
